Appreciation

The Moreman Gin Company wishes to express to their many friends their sincere appreciation for their patronage during this season—a patronage that has made the gin receipts of this company exceed those of any other gin company in this section.

We have ginned 10,628 bales of cotton for our farmer friends, many of them who have patronized us for years and whom we consider our personal friends. We thank them for this patronage that has helped us grow into one of the largest gin companies in the Gulf Coast Section.

Each season we intend to improve our plants, installing improved machinery when possible, to give the best possible results, and you may depend on our charges being the lowest possible, consistent with the cost of production.

We thank our friends for their patronage, which has helped us in making a success of our company.

Agua Dulce

Do you know what constitutes a strong constitution?

To have sound, healthy nerves, completely under control, digestive organs that are capable of absorbing a hearty meal, means you have a strong constitution! Your general attitude is one of optimism

But an irritable disposition, frequent attacks of indigestion, and a languid depression, indicate your system is not in correct working order.

Probably you are not earing the proper food. Probably the nutritheir elements are not being supplied to your system in the proper way.

Grape-Nuts is the wholesome, deficious cereal that promotes normal digestion, absorption and elimination, whereby nourishment is accomplished without auto-intoxication. A mixture of energy-giving wheat and malted barley comprise the chief elements of Grape-Nuts. A dish at breakfast or kinch is an excellent, wholesome rule to follow.

You can order Grape-Nuts at any and every botel, restaurant, and lunch room; on dining cars, on lake boats and steamers; in every good grocery, large and small, in everycity, town or village in North America.
